Q2

Respondent skipped this question

Question 1:What supply chain disruptions and trends are you worried about? Drag issues you find most important to the top

---

Q3

Other (please specify).

I am concerned about our huge dependence on imported pharmaceuticals

---

Q4

Respondent skipped this question

Please explain why you ranked the options in the order above (optional)

---

Q5

Anything else you would like to say on this question? (optional)

I am totally dependent on a drug called Creon for my pancreatic exocrine insufficiency. I wish it was manufactured locally from pig's enzymes. My neighbour is a diabetic dependent on imported insulin.

**Q9** Other (please specify):

Question 3a: How can the government help to enhance the resilience of your industry/community to supply chain disruptions? Select the option closest to your view

We need more manufacturing in New Zealand. It has dropped dramatically since 1990 and we should be at least at 1990 level.

---

**Q10** Respondent skipped this question

Any further details you would like to provide regarding the above (optional)

---

**Q11** Respondent skipped this question

Question 3b: What government actions (here or overseas) are you aware of that have helped improve supply chain resilience?

---

**Q12** Respondent skipped this question

Question 3c: Some government actions have downsides or require trade-offs. Can you give examples of occasions where government action to build resilience has come at a high cost or led to unintended consequences or trade-offs?

---

**Q13** Respondent skipped this question

Anything else you would like to say on these questions? (optional)

---

Page 6

**Q14**

Question 4:What should the Commission study to learn more about the economic resilience of industries and communities? Select all relevant answers

Other (please specify):

Our over reliance on imported pharmaceuticals, especially for the older population

---
