Email	s9(2)(a)

Page 3

Q2

Question 1:What supply chain disruptions and trends are you worried about? Drag issues you find most important to the top

Shipping and transport infrastructure bottlenecks	7
Climate change induced events such as floods, bushfires, and major storms	2
Dramatic price increases in crucial inputs	6
Total loss of access to crucial inputs or markets	4
Geopolitics events resulting in loss of access to some markets	1
Pandemic continuing to disrupt supply chains	5
Major players monopolising access to markets	3
Other (please specify)	8

Q3

Other (please specify).

Rise in fascism, crony capitalism and dictatorial regimes fuelled by hyper-activism of right-wing and several fringe groups (e.g. religious extremists, fanatics, sychophants) across the world has completely disrupted the productive functioning of MSMEs in particular and Large businesses in general.

Q4

Please explain why you ranked the options in the order above (optional)

Mostly, the ranking has been done from the perspectives about the challenges faced by our potential clients and current clients as well.

Q5

Q9

Question 3a: How can the government help to enhance the resilience of your industry/community to supply chain disruptions? Select the option closest to your view

The government should support industries and communities to identify and reduce risks to supply chain disruptions: targeted industry or community plans

Q10

Respondent skipped this question

Any further details you would like to provide regarding the above (optional)

Q11

Question 3b: What government actions (here or overseas) are you aware of that have helped improve supply chain resilience?

Not aware anything as such.

Q12

Question 3c: Some government actions have downsides or require trade-offs. Can you give examples of occasions where government action to build resilience has come at a high cost or led to unintended consequences or trade-offs?

Negotiating with multiple stakeholders during geo-political disturbances.
