

I strongly suggest that the government adopt the policies outlined by The Opportunities Party in their Climate Change Action plan <http://www.top.org.nz/top6> and the related policy document [https://d3n8a8pro7vhmx.cloudfront.net/garethmorgan/pages/602/attachments/original/1500500425/01237 TOP Policy 6 - Climate Change description.pdf?1500500425](https://d3n8a8pro7vhmx.cloudfront.net/garethmorgan/pages/602/attachments/original/1500500425/01237_TOP_Policy_6_-_Climate_Change_description.pdf?1500500425)

It doesn't matter what parties or politicians form the next government, or who actually implements these policies and gets the credit for it, as long as it is done.
